PROFILE

Engineering makes you realize your real passion. Isn't it? But I actually marked a debut in startup ecosystem right from my first year of graduation. My story started with SJ kitchen and currently working on my dream project [BookFlow](#) while being a Co-Founder of [OnPlay news](#).

Backlogs in engineering couldn't stop me from achieving a fame in my work. I have seen more downfall than success and this is what I use as pride badge for myself. I do not regret not enjoying college life but have used every moment to gain experience. Read more about me in this CV.

WORK EXPERIENCE

February 2015 - May 2016

Founder

SJ Kitchen
Vadodara, Gujarat

Single handily, did massive sales of 18 lacs in just one year. I can say I was rich in the reign of SJ Kitchen. It was hard managing everything i.e. inventory, order process, delivery, sales, accounts, promotion, technical side etc, but I enjoyed. It was simply not impossible. I experienced much much in the 1.5-year span of SJ. Due to lack of knowledge of taxes and working alongside with college(result down) led me to shut it.

January 2016 - Current

Founder

BookFlow
Vadodara, Gujarat

I currently or side-by work on BookFlow, an online books classifieds. I lead on the technical side, front-end design stuff and almost anything on core site. Other than these managing sales, raising promotions, leading a team in short some part in every members part. But I love what I do.

July 2017 - January 2018

Co-Founder

Onplay News

Kolkata, West Bengal

It is India's first news and information portal exclusively for digital content, brings to you all the latest updates, trending stories, interviews, reviews and next releases of your favorite Web series or YouTube stars!

As a Co-Founder here, I used to develop/manage portal, manage team and gave inputs in other initiatives.
